***Important Announcement - No  
application fee for this session  
2020-2021***

## Vice Chancellor –Prof.(Dr.)Ashutosh Ghosh, FASc

### From the VC's desk -

*Rani Rashmoni Green University is a state-aided university that is focused on facilitating social and cultural changes necessary for creating a sustainable world through education. It is a long-cherished dream of our Hon'ble Chief Minister that Bengal should have a world class university not only with a curriculum that encourages and promotes sustainable development but also with a campus that embodies environmental sustainability in everyday life paving the way for a cleaner, healthier and safer planet. To achieve this goal, it is imperative to have a curriculum which undertakes the study and research of environmental science and related disciplines. The university, in order to broad base its curriculum, would also teach Chemistry, Physics, Mathematics, Statistics, Earth science, as well as Social Sciences, Languages, Humanities, Commerce, Law and Management.*

*I must not forget to mention that we are beginning our academic activities during uncertain times when the world is ravaged by the global pandemic of COVID-19. All aspects of life have been hit but probably education has taken the hardest blow with suspension of classroom teaching for more than six months.*

*The University has opened its doors to the first batch of students for the Post-Graduate courses in Environmental Science and in Chemistry. As the VC of RRGU, I would do my utmost to provide good infrastructure and teaching and research facilities for the growth of future leaders. Our plans include construction of energy and water efficient buildings, classrooms and labs to set up a green campus. I would strive to ensure that the University fulfills its promise and reaches significant milestones in its journey towards excellence in learning, research and innovation.*

# Courses Offered for the Academic Session 2020-2021

2-Year(4-Semester) Regular PG  
course under CBCS

M.Sc. in Chemistry

M.Sc. in Environmental  
Science.

**TOTAL SEATS – 25 IN EACH  
COURSE**

**Reservation as per Government  
Order**
